Xavier Cugat Tells Probers Program Rigged

WASHINGTON (AP) — Orchestra leader Xavier Cugat told congressional probers today he received advance help as a contestant on "The \$64,000 Challenge" TV quiz program.

Cugat was the leadoff witness at today's session of House subcommittee hearings which have exposed rigging of once top-rated quiz programs.

He said he appeared on the program starting in June 1957 for publicity purposes, but "nobody told me in advance that I was going to win any particular amount of money or that I was going to win at all."

He actually won 16,000, he said, of which 10 per cent went to his publicity man who arranged the appearance, some went to his brother, some to Spanish and Italian orphans, and "most of the balance went for taxes."

"I knew I broke no law," he said. "I knew I intended no injury to any person. I know that as an entertainer I am called upon all the time to make believe, to help make a good show."

"I suppose the producers of 'The \$64,000 Challenge' also wanted to make a better show, and so they made believe, too. If there was too much make-believe, I wish you could do something about it without giving entertainment too much of a black eye."

The speaker was introduced by John McLellan. There were 55 members present and two guests, Hope Mayor George Frazier and the speaker.

Jonesboro
Pair to Defend
Lauderdale

JONESBORO, Ark. (AP) — Two Jonesboro law partners announced today they will defend E. A. Lauderdale Sr., a segregationist leader facing trial on charges of taking part in Little Rock's integration-connected Labor Day bombings.

The attorneys are James E. McDaniel and W. B. Howard.

Lauderdale, a 48-year-old lumber dealer, is accused of dynamiting the Little Rock School Board building and a station wagon assigned to Fire Chief Gunn Nally. His trial is set for Nov. 23 in Pulaski Circuit Court.

Amis Gethridge, attorney for the segregationists Capital Citizens Council of which Lauderdale is a member, originally planned to defend the accused man. But Gethridge resigned as defense counsel last Thursday, saying his client "deserves a trial on the merits of the case rather than be the butt of a planned attack on the cause of segregation."

At the bombing trial last week of Jesse Raymond Perry, the defendant and J. D. Sims, who pleaded guilty in the bombings, identified Lauderdale as the mastermind behind a plot to harass the public because token integration exists in Little Rock public high schools.

Perry was convicted on bombing charges and his punishment fixed at three years imprisonment. He is on bond pending formal sentencing. Sims who had turned state's evidence, is serving a maximum sentence of five years in the state penitentiary.

The company is seeking a \$150,747 annual rate increase, which would boost minimum water bills from 1.25 to \$1.65 and others an average of 15 cents.

In an earlier hearing, J. R. Pierce of Pine Bluff, general manager of the firm, said the cost of operating the system had increased 162 per cent since 1942, and that taxes had risen 250 per cent in the same period.

Pierce testified the corporation should be permitted a profit of from 6.5 to 7 per cent. H. L. Lyon, General's chief accounting officer, has said the present rate schedule yielded only 3.8 per cent return. The proposed hike would give the company a 6.1 per cent return at Pine Bluff.

Pierce told the commission it had approved only one rate increase at Pine Bluff since 1942, a \$60,000 boost in 1950.

McDaniel said in a statement:

"After a complete investigation, we are satisfied Lauderdale's innocence. We are further satisfied that the integration crowd and the FBI picked him out as one who must be convicted regardless of evidence. We are determined under our American system of justice to fight the case to the best of our ability."

Pierce told the commission it has been reported earlier that the Jonesboro law firm probably would take the case.

Waterworks at Pine Bluff Gets Increase

LITTLE ROCK (AP) — The Arkansas Public Service Commission today agreed to grant a \$90,000 annual rate increase to General Waterworks Corp. at Pine Bluff.

The boost will become effective as soon as the commission can draft and issue an order, probably tomorrow.

LITTLE ROCK (AP) — The Arkansas Public Service commission today resumes its hearing on a request by General Waterworks Corp. to raise water rates at Pine Bluff.

City officials are scheduled to present their arguments to the move.

Cites Double Benefit of Fish Farming

MEMPHIS (AP)—Fish farming offers a double benefit, an agricultural official from Arkansas said meeting here yesterday.

Lincoln Johnson of Dumas, head of the Fish Farmers Co. of Ark., said financial results were good but one of the returns was improvement of land.

Explained in a lecture to the Arkansas Agricultural Club that this Agricultural Club that Arkansas' rice country, the soil in the first year after it is set of timber. It is never again, he added.

Johnson said, "Land has been under water in a farm reservoir for two years since no additional fertilizer the first year it is drained and farmed. Two years under water will leave a four to six-inch layer of humus."

Land taken from a fish reservoir does not have to be plowed for a crop, he pointed out.

Johnson said it cost about \$75 an acre to enter the fish farming business. He said a farmer who rotated between rice and fish could expect a net profit of about \$50 an acre from fish over a two-year span.

Fish farmers in the Dumas area organized the coop to process fish for market and last year sold more than 500,000 pounds.

Gusty Cold Winds Spread in the East

By THE ASSOCIATED PRESS

Gusty winds blew cold air across wide areas in the eastern third of the country today but a warming trend developed in the nation's mid-section.

The cold air covered areas from the Great Lakes region to the lower Mississippi Valley and eastward to the Atlantic Coast. Biggest temperature drops in the last 24 hours averaged near 20 degrees and were in the Ohio Valley and lower Great Lakes region.

Readings ranged from the 20s in the Great Lakes through the 30s extending southward into Virginia and Kentucky. The 40s and 50s prevailed in other areas southward, with the 60s near the Gulf Coast.

try's capacity. Justice John M. Harlan asked if there is any likelihood the strike will spread to the companies, other than Kaiser, still making steel. Goldberg had said these account for about 15 per cent of the nation's production.

Goldberg answered that he does not believe there is any chance these companies will be involved because most of them have agreements providing that the settlement reached in the nationwide dispute will apply to them.

Goldberg emphasized repeatedly that President Eisenhower in his orders and statements directing that the Taft-Hartley proceedings be invoked, only gave an opinion—not a finding of fact as lawyers understood it—that the national health and safety would be imperiled by continuation of the strike.

Frankfurter commented that the President was dealing with the future and therefore had to be offering only an opinion.

Chief Justice Earl Warren inquired whether Goldberg meant to imply the President had not properly followed the provisions of the Taft-Hartley Act in invoking that procedure.

The attorney replied hastily that he was not making any such implication.

At the opening of the hearing Chief Justice Warren said that no time limit was set on either side and the chief justice said the court felt the parties would take no longer than was necessary to present the issues properly.

At issue in arguments before the court was the validity of an injunction already issued under emergency provisions of the Taft-Hartley labor law. It directs the workers to halt their strike during an 80-day cooling off period, but it doesn't become effective until the Supreme Court rules.

There was no firm indication how soon that would be. It was believed likely that legal arguments would be completed today, but no time limit was fixed. The court's ruling could come any time after the arguments end.

The court could, if it chose, announce its decision in a brief order without waiting to write a formal opinion. The opinion could be filed later.

Federal mediators met inconclusively Monday with both union and management negotiators and called further sessions for Wednesday. Chief Mediator Joseph F. Finegar said he hadn't decided whether to arrange separate or joint meetings then. No sessions were scheduled today because of the court hearings.

President David J. McDonald of the Steelworkers Union said Monday's meetings made "absolutely no headway." R. Conrad Cooper, chief industry negotiator, agreed.

President Debbie Hooks, presided and the meeting was opened with the pledge of allegiance and the Brownie Promise. Halloween masks were made during the afternoon.

Mrs. Werner Hamilton, Miss Jimmie Nicholas and Miss Adey Brown were weekend guests of Miss Mary Jo Hamilton, student at the U of A and attended the Arkansas-Texas A&M game on Saturday.

The union's major arguments are outlined in legal briefs, are that:

1. The findings of Judge Song that the strike, if not halted, would imperil the national health and safety were "based on a misreading of the statute and, even on that misreading, were unsupported by the evidence."

2. The Taft-Hartley law attempts to confer upon the federal courts duties that are not properly judicial functions, making the 80-day injunction provision of the act unconstitutional.

Solicitor General J. Lee Rankin, for the government, has challenged every legal contention of the union.

BEAUTIFUL, CHOKING HYACINTHS — These boats are tied up at the Marjorie Park Yacht Basin in Tampa, Fla., and that's where they're going to stay for awhile. Testimony Same as Ten Days Ago

NEW YORK (AP) — Manhattan Dist. Atty. Frank S. Hogan said Monday's testimony by Charles Van Doren, about rigging on "Twenty-One" TV quiz program, conformed to information given to the Supreme Court rules.

There was no firm indication how soon that would be. It was believed likely that legal arguments would be completed today, but no time limit was fixed. The court's ruling could come any time after the arguments end.

The court could, if it chose, announce its decision in a brief order without waiting to write a formal opinion. The opinion could be filed later.

News Briefs

PANAMA (AP) — American authorities in the Panama Canal Zone stood ready for any emergency today — the 35th independence anniversary of the republic of Panama — but made no open display of precaution.

An air of alertness pervaded the Canal zone as a result of calls by two Panamanian nationalists for a show of their country's flags in the Canal Zone. The United States holds a perpetual lease on the 10-mile wide, 40-mile-long strip of land.

Police said they booked Mrs. Harry Blue, 31, for investigation of murder. The victims were Harry Norman, 10, and Gwendolyn Earl 8.

Sheriff's Deputy Claude Miller said neighbors told him that Mrs. Blue was distraught because of her husband's upcoming tour of duty.

Blue's home is in Atlanta, Ga. Mrs. Blue is originally from Houston, Tex.

MIAMI, Fla. (AP) — In an attempt to stop illegal flights from Florida to Cuba, federal agents have fanned out over the state's 200 small airfields.

The Justice Department, at the request of President Eisenhower, beefed up its border patrol force in Florida.

Jimmy Davis acted as property
man.

Ike Praises
Intelligence
Agents' Work

WASHINGTON (AP) — President
Eisenhower said today the
government's intelligence agents are
a mainstay of peace as well as
national security.

The President paid his tribute
in a talk at nearby Langley, Va.,
where he participated in cornerstone
laying ceremonies at the new headquarters building of the
Central Intelligence Agency.

In his prepared text, Eisenhower
said America's fundamental
aspiration is the preservation of
peace.

To achieve that goal, the President
said, the nation must have
from its agents the picture of
conditions, resources, requirements
and attitudes in the world.

"They are essential to the develop-
ment of policy to further our
long term national security and
best interests," Eisenhower said.

Eisenhower told the CIA personnel
that the work in which they are
engaged requires the highest
order of dedication, ability, trust-
worthiness and selflessness. "To
say nothing of the finest type of
courage, whenever needed."

"Success cannot be advertised;
failure cannot be explained," he
said. "In the work of intelligence,
heroes are undecorated and unsung,
often even among their own
fellowmen. Their inspiration is
rooted in patriotism—their reward
can be little except the conviction
that they are performing a unique
and indispensable service for
their country, and the knowledge
that America needs and appreciates
their efforts. I assure you
this is indeed true."

Another speaker at the ceremony
was Allen W. Dulles, director of
the supersecret intelligence opera-
tion.

The President left by Army
helicopter after the ceremony for
Gettysburg, Pa., to vote.

The end of hot weather does not mean that one no longer needs a deodorant. This girl chooses a liquid cream deodorant in a pretty pink plastic squeeze bottle.

The first automatic roll-on lipstick has arrived. This girl uses it (above) in place of lipstick, lip liner and lip brush. It comes in a slim, two-tone golden case.

DOROTHY DIX

Hale Fellow Hails
Too Many Contacts

Dear Dorothy Dix:

My wife is a fine person, albeit
too sensitive. She is the only girl
I ever loved, or ever would love.
We do have one point of dis-
agreement. I believe in being
friendly and giving a personal
touch to all my contacts. I hate
the formality of Mr., Mrs., and
Miss, and always like to call people
by their first names. I like to
know the people I ride to work
with, the waitresses, taxi drivers,
bank tellers, store clerks — even
for her age, she is young, and probably immature
for her age, at that she sounds
so. Don't try to rush her into a
decision. Date other girls yourself,
and give Barbara time to make
up her own mind.

Dear Dorothy Dix:

I am a girl of 16, in love with
a married man of 28. The only
time I see him is when I baby sit
for his two children. How can I
get over this feeling for him?
—Diana

Dear Despina: The first thing
to do is squarely face the fact
that your emotion is wrong and
will bring you nothing but un-
happiness. Stop the day dreaming
over the man which is what I
suspect you do with most of your
spare time. Next, give up the
babysitting job, no matter how
much you need the money. There
are other jobs.

Like many good things, it can
be overdone, and it is in the
cause of the talent that trouble
lies. You are making a travesty
of friendship in the way you abuse
your gift. Concentrate more effort
on winning a few good friends
rather than trying to become the
entire human race in your arms-
around-the-neck embrace.

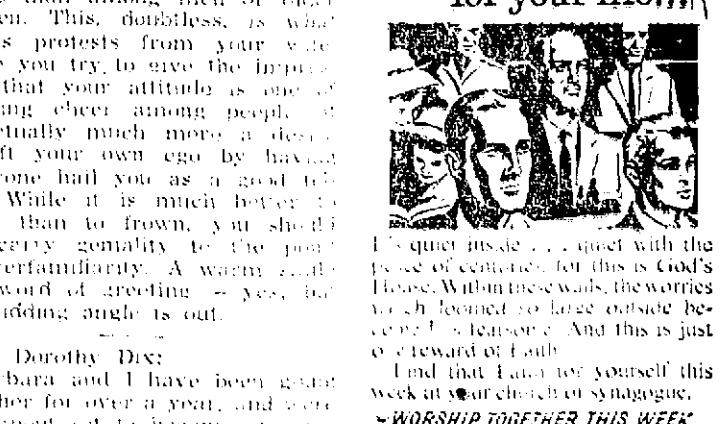

I am inclined to assume, though
you do not say so, that you are
much more likely to be interested
in spreading cheer among young
ladies than among men or other
women. This, doubtless, is what
brings protests from your wife
while you try to give the impression
that your attitude is one of
encouraging cheer among people.
It is actually much more a desire
to lift your own ego by having
everyone hail you as a good gal.
While it is much better to smile
than to frown, you should not
carry gaiety to the point of
overfamiliarity. A warm smile
and word of greeting — yes, for
the kidding angle is out.

Dear Dorothy Dix:

Barbara and I have been a
couple for over a year, and we
must admit set to become engaged
when she began going out with
another boy. I have given up
smoking and drinking for her, and

she has given up smoking for me.

See No Adoption
of Rights Plank

MEMPHIS (AP) — An Arkansas
congressman says he doesn't believe
the Democratic Party will
adopt a strong civil rights plank
in its platform for next year's
presidential election.

Rep. Dale Alford of Little Rock
told newsmen yesterday there is
growing opposition outside the
South to such a move.

As for the South's political
future, Alford said he is confident
it not only will remain in the Dem-
ocratic fold, but even more
solidly than in recent elections.

Porkers Work on Defense for Rice Saturday

FAYETTEVILLE, Ark. (AP) — The University of Arkansas Razorbacks had a session of defense against the Rice ground game on tap today.

The clash at Houston Saturday is vital for the Hogs if they are to continue in the race for Southwest Conference honors. They are 3-1 in league play, and took another step up this week in the Associated Press national poll, from 17th to 16th. Texas is third and Texas Christian 17th.

After yesterday's drill it developed that quarterback Jim Monroe is on the doubtful list for action against the Owls. He is troubled by a hurt shoulder.

Also on the doubtful roster are ends Leslie Lesters with a bruised hip and Steve Butler with a sprained ankle.

Coach Frank Broyles dismissed the casualty factor.

"Every team has them at this stage of the season," he said. "We've got to keep going and get better with what we have."

Replacing Monroe in drills yesterday was George McKinney and he drew praise from Broyles.

"He initiates the team and he shows real leadership qualities," the coach said.

News Briefs

FREMONT, Calif. (AP) — Police said today that trick-or-treat "candy" given to 30 children Halloween night probably was a powerful laxative, nonpoisonous but not suited for children.

More than a dozen youngsters who ate the sugar-coated heart-shaped pills became violently ill, vomiting and suffering diarrhea.

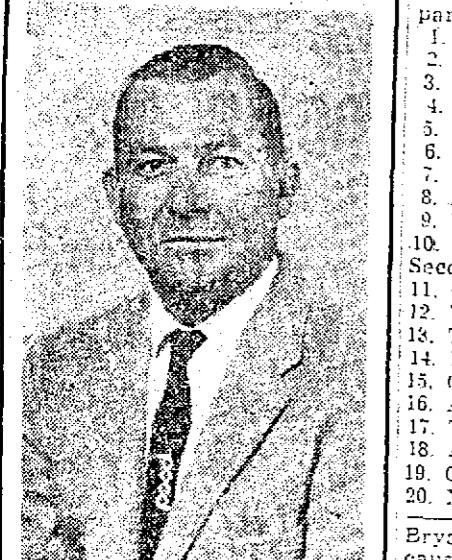

Police said a number of the children pointed out the home of an unidentified Conterville resident as the place where the pills were put in their trick-or-treat bags.

Patrolmen called on the man and reported he denied giving the kids anything but lollipops. There was no charge filed immediately and the man was not held.

HOUSTON, Tex. (AP) — A doctor's three small daughters burned to death Sunday when a fire which firemen think was started by a candle in a jack-o'-lantern destroyed their home.

Fire investigators sifted the ruins of the \$50,000 home of Dr.

Have you ever heard anyone say "The insurance business delivers a product only when it pays a claim?" This is a catch phrase which is untrue. Unfortunately, though, many people think of insurance only in terms of a loss.

But insurance is NOT merchandise; it is a service. The service which a policy renders is PROTECTION — the avoidance of uncertainty.

Protection is delivered the moment the policy is placed in force. It "performs" EVERY MINUTE during the life of the policy.

In other words, you receive a tremendous benefit during the policy period whether you experience a loss or not. You get your money's worth, even if you have no loss, because you receive "peace of mind" and the assurance that you will be paid if a loss occurs.

Without insurance, modern industry couldn't exist. Insurance protection makes it possible to build factories, establish retail stores, and secure the necessary credit. Otherwise, ownership of property would invite disaster. Few, if any, concerns would take the risk.

Insurance PROTECTION, in a wide variety of forms, is available to you. Stop by, or phone, and we'll visit you to explain how you can have the protective benefits of the proper insurance.

LSU in First, Old Miss Drops; Arkansas 16th

By JACK HAND
Associated Press Sports Writer

This is the week of decision for the big boys who rank high in the football poll. Louisiana State, Northwestern, Syracuse and Penn State should know if they can hope to go all the way by Saturday night.

LSU just finished a harrowing test, beating Mississippi 7-3 on a first-quarter touchdown and then holding off Ole Miss in a goal line stand to remain the No. 1 team in the national Associated Press poll of sports writers and sportscasters.

Now the Chinese Bandits and Billy Cannon face another vital game Saturday with Tennessee, beaten by Georgia Tech and tied by Alabama. If LSU gets past this game, only off-beaten Mississippi State and Tulane bar the door to another perfect campaign and the Sugar Bowl.

LSU received 132 first place votes among the 202 cast in the poll. It was the 14th straight time the Tigers have been the No. 1 club, including a pre-season ballot.

Northwestern, the No. 2 club, showed impressively against Indiana, 30-13 with its cripples back in the line-up. They may need everything they have Saturday when they meet once-beaten Wisconsin, the No. 9 team, with the Big Ten lead at stake.

The unofficial Eastern title will be at stake Saturday at University Park, Pa., when Syracuse (6-0) plays Penn State (7-0), a pairing of the No. 4 team and the No. 5 team in the nation.

The only new entry in the top 16 this week is Clemson, which took over 10th place after beating Rice 19-0. Georgia Tech knocked off Duke 10-7, dropped all the way from ninth to 19th.

The top 10 with points based on 10 for a first place vote, 9 for parentheses:

1. Louisiana State (132) 1.359
2. Northwestern (30) 1.396
3. Texas (6) 1.442
4. Syracuse (14) 1.374
5. Mississippi (1) 1.123
6. Southern California (4) 1.374
7. Penn State (7) 1.374
8. Auburn (3) 1.374
9. Wisconsin (2) 1.374
10. Clemson (2) 1.374

Second ten:

11. Georgia 1.374
12. Washington 1.374
13. Tennessee 1.374
14. Purdue 1.374
15. Oregon 1.374

LITTLE ROCK (AP) — The Arkansas Supreme Court apparently is through with the case of the wandering dog. It refused yesterday to rehear the case, in which the high court upheld a lower court's decision affirming a \$5 fine against Mrs. Betty Weeks of Paragon for letting her dog run loose.

The fine was imposed under a Paragon city ordinance. Mrs. Weeks argued that the ordinance violated a state law which did not provide for fines for persons responsible for roaming dogs.

Tuesday TV Shows Offer a Variety

A demented soldier is reported heading for the border with two hostages, in "Pursuit," in this week's exciting episode of *U. S. Marshal*, which will be shown tonight at 6:30 on Channel 6.

Marshal Morgan, portrayed by John Bromfield, is confronted with the difficult task of bringing the man to justice and seeing to it that no harm is done the hostages.

Trooper Rod Blake played by Cameron is out to catch a trigger-happy bandit who has robbed and killed a store owner in "Another Chance" on tonight's "State Trooper" adventure at 7 on Channel 6.

Debie's beatnik buddy, Maynard Krebs, receives a touching eulogy from his friends when he answers an Army draft call, in "Maynard Farewell to the Troops" on KCMC TV comedy series, "The Many Loves of Debie Gillis," tonight at 7:30.

Screen star Gloria De Haven guest stars in "The Rifleman" drama "Eddie's Daughter" tonight at 8 on Channel 6.

Two bold men follow beautiful Lil Halstead, portrayed by Miss De Haven, to North Fork and threaten her life for a reason unknown to her.

Hotel Clerk Eddie Halstead is bewildered when Lil, the daughter he hasn't seen in 15 years comes to town and he discovers that she's a "fast girl." McCain is not exactly sympathetic to Lil and her problems, but tries to help his friend Eddie clear up matters.

Special guests on the "Garry Moore Show" tonight from 9 to 10 on Channel 6 are musical-comedy stars Larry Blyden and Miyoshi Umeki. Garry, his guests and regulars Marion Lorne and Durward Kirby appear in a comic sketch about the fall of Humpty Dumpty. They also present a satire "What Makes Irving Trot?" and "That Wonderful Year" is 1926.

Negotiations Resume at El Dorado

EL DORADO, Ark. (AP)—Union and management negotiators will meet again Thursday in efforts to settle a four-months-old strike at the American Oil Co. refinery here.

The company and the Oil, Chemical and Atomic Workers Union are reported agreed on all but one point of a new contract. Representatives will meet with Walter White, a federal mediator from Dallas, Tex., in trying to agree on a clause on job classifications.

About 275 men have been out since July 1.

Pioneer Ohio Brick Works of 1866 Built This House

TOP — THESE PICTURES ARE OF LOCAL INTEREST because they deal with John Emerich, grandfather of Mrs. Isabelle Onstead McCorkle of Hope. Mr. Emerich was a pioneer brickmaker back in Ohio in 1866, and the top photograph shows him at a pump the day he and his crew completed building a brick works at St. Johns, Auglaize county, Ohio, near the city of Lima. The remarkable thing about this picture is that it is a thin copy. The original was a tintype. A member of the family had had it copied onto a photographic postcard — that is, it was not engraved, therefore had no engraving screen to make further reproduction impossible. The Star made the above photo copy from Mrs. McCorkle's postcard picture.

BOTTOM — With the brick manufactured in the new brick works Mr. Emerich built this fine house.

rubber and rotted fish. Even before she saw the name, "FONTEES," Sara knew it must be the warehouse she sought — a large new building of corrugated sheet iron.

She dismissed the cab and walked, sketching pad in hand, down the cobblestoned incline. Out of the corner of an eye, she saw a sign over a door, "Escritorio." Office.

Through its glass she glimpsed vaguely, two or three men moving about. But, almost turning her back on it, she sketched the harbor.

She was close to the path of smooth-worn cobble stones which anyone entering or leaving the warehouse would take. No one entered or left. She would likely run out of sketching paper before she met — accidentally — Fontes or one of his men. She pretended to just discover the tops of the cranes showing over the warehouse and she went on to the other side.

"I was also in Guerland," he went on "after the war, when your country no longer needed our rubber." That, she knew, was when John had met him. He was looking at her hand, and she thought he was trying to see her drawing pad. "You and your husband are traveling to Rio, I suppose?"

"My husband died last April. The day of your fire, she wished she could add, and won't you please tell me about it so we can

she knew Mr. Dotzmann or John?

"Right after Pearl Harbor. I knew your country would need our rubber; I went to see an insurance company in Guerland and then on out to Washington, D.C. That's when I left school, too. Washington University in St. Louis."

He lit a cigarette, blew out the match and ground it with his foot.

"I was also in Guerland," he went on "after the war, when your country no longer needed our rubber." That, she knew, was when John had met him. He was looking at her hand, and she thought he was trying to see her drawing pad. "You and your husband are traveling to Rio, I suppose?"
